

1.3 Club Registration Policy

Purpose: To provide guidelines and procedures for athletes registering for Long Course Season, Short Course Season, Masters Program and Swim Lesson Program.

Policy: All new and returning athletes enrolling into a JAWS program must complete the required registration forms for that program.

Procedure:

1. New and returning JAWS swimmers will be required to complete all registration forms for each swim season. These forms include the seasonal registration form, financial obligation form, abuse policy form, and the athlete code of conduct form.
2. All athletes participating on the JAWS swim team must have a USA athlete registration number on file. This form is given to the athlete along with the seasonal registration forms in August. If an athlete registers for the LC season in April and does not have a current US athlete number, they will be required to complete the seasonal athlete registration form in order to participate in swim team activities.
3. Masters Registration forms will be completed once a year. New and returning swimmers will be required to complete a registration form each August along with the USA Masters Registration form.
4. Swim Lessons are offered several times through the year. A swim lesson registration form must be completed by each participant and for each session.
5. All completed registration forms are to be kept on file in the club file cabinet during that current season.
6. No athlete will be allowed in the water without the registration paperwork completed and on file.
